

# CARRY CUP

Take out Please

GOOD DESIGN AWARD 2016  
**BEST 100**

## Adding a touch of "kindness" & "peace of mind" to your customer's take-out order

For 1 Cup

For 2 Cups

Patented  
Japan Made

**Key!!! Point!**

Flexible seal

### About the Flexible Seal

The flexible seal makes an appropriate adjustment while placing the cup inside the bag. **Only necessary part of the seal is unstuck** thus making the cup fit firmly. Even with its various shapes and sizes, it will contain the cup steady and secure.

Remained intact

Peeled off part of the seal

cup support here!

**Simple & Compact**  
**Flexible & Fit**  
**Eco & Smart**

For over two and a half years of iterated trial and error aiming for a **(One-Material· One-Piece Production Concept)** and by integrally devising our patented cup support element (flexible seal), we were able to realized all of our three design core concept.

No need for a paper cup holder!

to the Shop using the bag

It contributes to the reduction of overall material cost with faster and efficient service! The shop will enjoy the satisfaction it gives to their customers thus leading to the increase in sales.

to the Customers buying a drink

Hot or cold, the cup can be carried safely and with relief, as the cup is not held directly by hand. Since it can be tagged along with comfort, it is easier to carry along other purchased items.

## How to use Carry Cup

## Precautions

### When placing the cup inside the bag...

Adjustment seal will automatically adjust according to the size of the cup. Handling the cup is more stable if properly placed at the center of the bag.

Using the bag with the cup not properly placed will cause instability of the cup. This may result to spillage of the content of the cup.

\* It is not possible to restore the adjustment seal once it peeled off.

Simple & Compact

Flexible & Fit

Eco & Smart

Light • Simple  
Shorter set-up time!

Safe • Ease  
No more fall!  
No more spill!
